

intelliweb solutions

...your software just got smarter

Intelliweb Solutions, LLC is a software consulting, development and training firm. We offer a range of on-site and remote services that enable our clients to build and deploy reliable, scalable Rich Internet Applications using a number of tools including Adobe Flex 2.

“Specializing in Rich Internet Application web technologies”

Our consultants are subject matter experts in the areas of web application development and Rich Internet Applications.

Our **CORE** services include:

- ◆ *Architecture and Code Review*
- ◆ *Custom Software Development*
- ◆ *Mentoring and Training Services*

Architecture/Code Review

Our Architecture/Code Review engagements provide our clients with a thorough review of their software and systems architecture as well as review of application code.

The services provide the following essential benefits to our clients:

- ◆ Ensure applications are properly architected
- ◆ Identify potential application bottlenecks and performance issues
- ◆ Provide comprehensive performance testing of web applications. This includes both client and server side architecture analysis and tuning of Rich Internet Applications

While these services are best utilized prior to application deployment, they can be invaluable in diagnosing specific problems after an application is deployed.

Our consultants will provide you with comprehensive reports that detail all outcomes of the Architecture/Code Review and recommendations for remediation of any issues.

Custom Software Development

Our developers and designers specialize in using Adobe application development tools including Adobe Flex and Adobe ColdFusion.

We pride ourselves on delivering innovative solutions to complex business problems.

Our well defined software development methodology helps to ensure your projects are successfully completed on time and within budget.

Our Custom Software Development services provide our clients with the expertise needed to achieve measurable return on their RIA investment.

Mentoring and Training

Intelliweb Solutions, LLC provides knowledge sharing services as part of our core mentoring and training business.

These variable length engagements provide our clients with a project specific balance of custom training and consulting.

Our consultants are experienced Rich Internet Application developers with years of experience developing mission critical web applications for clients in both the public and private sectors.

“Our goal is not simply to be knowledgeable, but to share our knowledge with our clients and partners”

Additionally, our consultants are *Adobe Certified Instructors (ACI)* fully qualified to teach the Adobe’s training curriculum.
